VAN MAHOTSAV 2026

"Each One, Plant One"

21 JULY 2026

KAMAL MODEL SR. SEC. SCHOOL

Kamal Model Sr. Sec. School celebrated **Van Mahotsav 2026** to promote environmental awareness and sustainable living.

The programme began with a special assembly, where students took a pledge to protect nature, followed by an awareness rally with posters and slogans on tree plantation.

Students planted saplings at home in balconies, terraces, rooftops, and other available spaces, choosing low-maintenance plants suitable for urban living. They also spread the message **"Each One, Plant One"** in their neighbourhoods. Participation and plantation details were recorded through a Google Form.

The campaign successfully increased green cover, encouraged community participation, and helped students develop environmental responsibility. It was a meaningful initiative that reinforced the school's commitment to building a greener and more sustainable future.

गुरु पूर्णिमा

29 JULY 2026

Kamal Model Senior Secondary School celebrated Guru Purnima with great devotion and enthusiasm in the school auditorium.

The programme commenced with the ceremonial lamp lighting, symbolising the light of knowledge. A soulful devotional song on the glory of the Guru set a spiritual tone for the celebration.

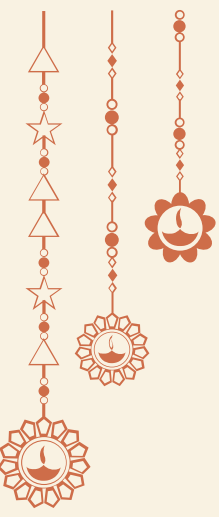

Students then presented a meaningful skit highlighting that a mother is the first and greatest Guru, and that both mother and Guru hold an equally revered place in our lives.

A heartfelt Hindi poem and the recitation of sacred Guru shlokas beautifully reflected the significance of the Guru in shaping one's life.

The programme also included a **Guru Dakshina Sankalp**, a solemn pledge taken by the students to respect their teachers, uphold moral values, and strive for excellence. The celebration concluded with a message of gratitude towards all Gurus, leaving everyone inspired by the timeless tradition of honouring teachers.

CULTURE AND HERITAGE
Imagine a land where 5,000-year-old secrets are still wrapped in mystery, where ancient wisdom meets modern science in a symphony of light and shadow. This is India, a place where history is not just a subject to be studied, but a living, breathing entity that shapes the very soul of the nation. From the golden temples of Varanasi to the white marble palaces of Jaipur, every corner of this vast land tells a story of resilience, creativity, and timeless beauty. As we stand on the shoulders of giants, we realize that our heritage is not just a relic of the past, but a source of inspiration for the future.

THE ART OF BEGINNING AGAIN
"I'm only five feet, but if you do it right, once is enough." Mahatma. Challenges are a part of life's journey. The true essence of strength lies not just in the physical, but in the mental, the emotional, and the spiritual. It is the ability to rise above adversity, to embrace change, and to find meaning in the struggle. Life is not a straight line, but a series of curves, each demanding its own set of skills and resilience. We must learn to embrace the unknown, to step out of our comfort zones, and to have faith in our ability to overcome. For it is in the moments of greatest challenge that we discover our true potential and the power of the human spirit.

BEYOND SUCCESS, TOWARDS WISDOM
The twenty-first century presents us with a paradox: while we have achieved unprecedented levels of technological advancement, we also face a crisis of meaning and purpose. Success, as we define it, is often fleeting and hollow, leaving us feeling empty and lost. True fulfillment comes not from the accumulation of wealth and power, but from the pursuit of wisdom, knowledge, and inner peace. We must learn to balance the material with the spiritual, to seek not just to succeed, but to thrive. For it is only when we have found our true self, when we have embraced our humanity, that we can truly achieve and make a lasting impact on the world.
